

Water Cable Cleaner

TECHNICAL INFORMATION

Water Cable Cleaner is a cleaner and degreaser for cable. It allows to remove dirt, dust and grease from the cable.

Water Cable Cleaner will not damage the rubber or plastic.

Water Cable Cleaner is **BIOSOL 95** based but in water base formula, and allow to remove cable filling greases.

The handy 250 ml bottle allows you to put the product directly onto the part to be cleaned. Subsequently, by use of a dry cloth, it is possible to clean thoroughly the cable. Before use the product is necessary to shake it.

Water Cable Cleaner can replace other products currently used for the same purpose with a significant advantage in terms of cost and safety.

SPECIFICATIONS
